

Creative Director: Bernice Mai

Developer: Chelsea Chu

Topic: Anna May Wong

Meeting: Forgot to record the meeting

Notes:

Home Page:

- Created a page based on Anna May Wong, the first Asian American to become a famous actor in Hollywood, like a biography.

Childhood:

- Want to focus a bit on her childhood and how she decided to enter the entertainment industry.

Life in acting:

- Want to focus mainly on her career on how she was treated during the time, as racial discrimination was very heavy at the time.
- Small section out her impact.

Style:

- Make it retro Hollywood but a bit more with a dark color palette
- She is seen as almost a villain on the movie poster
- Go for the color plate off her movie poster to help design and style the website.
